Team Tryout Checklist

The selection of teams is tedious, and many key elements are considered in our decisions. We must choose a well-rounded variety of individuals for each team. We take in to account the team successes and also the proper progression for each athlete. We evaluate and encourage participants to re-do their skills if they are not 100% satisfied with their tryout. With the new score sheets and judging rubric, we stay competitive by requiring that more than the majority of athletes need to participate in all level appropriate skills. Exceptions will be made to create a well-rounded competitive team.
